PREFACE

ALMOST 1300 cuneiform tablets from ancient Nuzi (near Kirkuk, Iraq) have been published, including 597 excavated in 1927-31 under the auspices of Harvard University and the American Schools of Oriental Research. With the exception of those published by Professor Meek in the preceding volume of this work (Harvard Semitic Series, Vol. X), all the Nuzi tablets, published and unpublished, date from the fifteenth century B.C. The present volume brings the available number of Nuzi texts to 1700, of which nearly one thousand are from the Nuzi collection in the Harvard Semitic Museum, leaving twice as many there for future publication.

The tablets published in the preceding volumes consisted of selected archives and when possible were arranged according to topics. In the present volume the tablets published are of a miscellaneous nature and, for practical reasons, they are arranged consecutively according to their Semitic Museum registration number, in a purely arbitrary order. Of the tablets numbered SMN (= Semitic Museum: Nuzi) 1-500, all those not previously published are edited in this volume. A list of the tablets in this group which have been previously published is given in the Register. The tablets numbered SMN 1-500 were excavated in 1927-28.

Another difference distinguishing this volume from earlier ones is the use of transcriptions in place of cuneiform copies, except for eight important tablets (SMN 21, 132, 165, 491, 690, 799, 1434, 2153-2154) which have been autographed by Dr. Lacheman and appear in the ten plates at the end of this book. That such a method is not entirely satisfactory we well know, and we appeal to the indulgence of Assyriologists who rightly prefer cuneiform copies for their work of research. In view of the financial difficulties and of the great mass of material awaiting publication, we were faced with the choice of publishing either a small selection of tablets in autographed copies, or a complete collection in transcription. The latter alternative seemed preferable to us.

The transliterations were made separately by two decipherers and collated several times with the original tablets before Dr. Lacheman prepared the final typescript. By this method subjective interpretations and errors

have been eliminated as much as possible. If any of our interpretations seems doubtful to a scholar, he may easily reconstruct the cuneiform text of the passage by referring to the lists of F. Thureau-Dangin (*Le Syllabaire Akkadien*, Paris, 1926; and *Les Homophones Sumériens*, Paris, 1929), whose system of transliteration, according to the general practice of Assyriologists, we have followed consistently. For doubtful readings, the cuneiform signs are given on pages 98-104. Our transliterations conform to the etymology of Akkadian words and disregard the anomalous pronunciation of Akkadian current at Nuzi. But in the case of non-Semitic words we have generally chosen the most common value of a sign, without diacritical marks in its transcription. When the pronunciation of an ideogram is still in doubt, we have transcribed the signs in capital letters, as in MA.NA (mina). When ideograms are transcribed in Akkadian, their endings conform to the context: thus for instance the correct form *bītāti* (houses) in 445: 5 appears as *bītātu* in 488: 17, because it is followed by *ša-šu-nu-ma* (those).

* This register lists all the Nuzi tablets in the Semitic Museum numbered from 1 to 500 (SMN 1-500), giving the location in which they were found in 1927-28 (A: House of Zigi and Shilwateshub; C: Palace of Nuzi; T: House of Tehiptilla), and the size (in mm.), except for those previously published in HSS IX (R. H. Pfeiffer, *The Archives of Shilwateshub*) and in AASOR XVI (R. H. Pfeiffer and E. A. Speiser, *One Hundred New Selected Nuzi Texts*. *Annual of the American Schools of Oriental Research*, Vol. XVI, 1935-36). Fragments of tablets are indicated with the abbreviation "ff."

Note: The last sign -ḫi of line 17 is written above the sign -ir. The last three signs are written
 along the right edge, but because the sign -ir reaches the reverse overlap of line 12, the scribe wrote
 the sign -ḫi above -ir.

NOTES, ADDENDA and CORRIGENDA.

SN 2: Each line is separated by an horizontal, dividing line.

Reverse has seal impression. This tablet was written by the same scribe as SN 143, 1453, etc.
There is a fragment of a case with a seal impression.

SN 3: sn̄n̄ka is written AE, EA. Line 10 is the Lo.E. The tablet is written on both sides: the obverse overlaps on the reverse.

SN 4: The last two signs of line 3 are

SN 6: 32: ²gu-si-ri m̄r a-ri-iq-qa-a-a

45: add at end: ²dob-bi-is-ri m̄r ge-li-in

SN 8: 28 U.E.

The Left Edge is divided in three sections by vertical lines. aban ²ar-si-ib-ni is written in the first section, lower part; aban ²te-bi-it-te-šup in the middle section, upper part and m̄r tu-ra-ar-te-šup in the middle section, lower part. aban ²[su-ūš]-te-šup is written in the third section.

Therefore it is possible to read: aban ²te-bi-it-te-šup m̄r tu-ra-ar-te-šup
~~aban ²te-bi-it-te-šup aban ²[su-ūš]-te-šup~~
~~aban ²ar-si-ib-ni m̄r tu-ra-ar-te-šup~~

SN 15:5. The sign di in id-din-na lacks the vertical wedge:

SN 17:6. ²sub-be-le-[su-na m̄rkt x x x]

SN 18:10: sic!

13: or possibly: hu-[d]-[ri]

27: aban ²a-kup-dug-gi should be: 28 Le.E. Add: ²⁹ aban ²a-ar-bu

SN 19:1 : ²i-na-bi [x x x]

31: l(p̄) le'atp^{pl} should be line 4.

9: begins a new paragraph; Line 11: begins a new paragraph

SN 20: 11: ā is written in the margin.

SN 21: KA.U is always added in the margin

SN 24:13: m̄r tul-bi-ke-en-ni should be line 14. Line 14 is Lo.E. Line 16 is Rev. Line 20 is U.E.

SN 28:3: Read ba-ap-pf-ri-i

SN 31:4: am̄liti^{pl}

10: add at the end: a-na

20: d-lu ~~am̄liti~~

21: read āēēēi(AB.AB.ēi)

37: U.E. : <aban> ²el-bi-ir-til-la

SN 32:9: 51 on le'atp^{pl} hap-pf-ra

11: after am̄m, add: SUKU

SN 33:11: begins a new paragraph.

After line 17, there is a blank space.

SN 36:5: at the end, add: a-na.

265:6: ~~ka~~ ²si-il-sa-te-šup10: ~~ka~~ ~~sa~~ ~~te~~ ~~šup~~
